

## The common welfare is in our DNA

Since 2012, Raiffeisenbank Lech has been following the principles of the Economy for the Common Good - a value-based economic model that puts people, the environment and the region at the centre.

What started out as an impulse is now an integral part of our business activities. In April this year, we proudly completed our seventh ECG balance sheet for the years 2023 and 2024 - with 608 out of a possible 1,000 points. This is a great result that reflects both the small and larger measures we have taken in recent years. However, the level already achieved in the last assessment in 2022 (572 points) makes it increasingly difficult to develop further. Nevertheless, we will remain passionate and responsible in the future.

### It's blooming around Lech am Arlberg

RHODODENDRON HIRSUTUM

#### Alpine rose

This plant is also known as 'Almrausch'. An 'intoxicant' with extremely unpleasant consequences: Anyone who ingests some of it must reckon with nausea and nasty stomach pains. The evergreen shrub is completely harmless to bumblebees, bees and the like.

## On the trail of the Walser

A special attraction is the popular geocaching during the discovery tour at Tannberg. Around 30 creative caches can be "logged" on three different routes: In Lech the tour "Gipt's das?" leads through the area of geologically remarkable gypsum holes, at "Pfarrer Müller und das weiße Gold" in Warth the historical paths stand in the centre and in Schröcken the entertaining search revolves around the theme "Walser village and natural jewels".

The electronic treasure hunt is based on the idea of hiding caches and marking them with geocoordinates. The position of the treasures is published on the internet. Once the cache has been located, the discoverer enters the name and date in the logbook inside. In the tourist offices of Lech Zürs, Warth and Schröcken there are treasure maps and stamp passes available, which can also be downloaded from the Internet. For fully completed stamp passes, the successful geocachers receive individual "Tannberg Geocoins" at the tourist offices as a reward, which can then be sent on a world tour from geocache to geocache.
