

## Nine years of Common Good Economy

**When a bank commits itself to the common good ...  
... then it's a process with an uncertain ending.**

Because some people find it strange. But if we take a closer look, we see that a bank has an extraordinary role in our economic system. In its role as lenders, as money creators and as service providers. In order to secure and increase savings, it is currently the central pivot in our economic life.

When a bank commits itself to the common good, a lot changes: product portfolio, investment strategies, purchasing, the consumer habits of its employees and finally, step by step, the awareness of the customers. When capital is channeled into other, charitable ventures, a bank can have a huge external impact, making investment decisions and raising awareness of what we use our money for and to whom we want to make it available.

The common good balance constantly challenges us to question our own actions and, above all, to go one step further. This also creates tension, irritation, and sometimes resistance. And only by allowing these tensions to arise can change happen.

A stated goal of Raiffeisenbank Lech am Arlberg is to achieve a deeper awareness of the issue within the region through its pioneering role. Other companies should be inspired to work together to make the future sustainable.

### It's blooming around Lech am Arlberg

GENTIANA LUTEA

#### Great Yellow Gentian

The Great Yellow Gentian is just as strong as it looks. A determined opponent to wind and weather, this one confronts them bravely. It passes its strength onto you and your skin.

## Bike & Hike at the Arlberg

Countless bike tours and mountain bike trails attract cyclists and mountain bikers every year to Lech Zürs am Arlberg. Transalp or active holiday – your two-wheel adventure awaits!

Kriegerhorn, Stierloch – To skiers, these names invoke pure adrenaline. In summertime, mountain bikers and hikers share these places. Tours in Lech Zürs focus on diversity and variety. They are designed for beginners, leisurely cyclists, as well as experienced trail riders and those counting their vertical metres. Mountain huts and farms are inviting places to take a well-earned break, which means that the sporting aspect of an active holiday can always be combined with a necessary dose of relaxation.

E-bikes and e-mountain bikes are becoming increasingly popular. Though the electric bike doesn't do all the work and the cyclist still has to pedal, the electric motor makes cycling easier. The motor is especially handy on the mountain and ensures that you can ride through the mountain landscape at higher speeds on flat tracks. If you don't have your own e-bike, e-bikes and e-mountain bikes can be rented in Lech Zürs at bicycle rental shops that offer single or multi-day rentals.
